1.) What do you hope to learn, or what skills and knowledge would you like to gain by participating in this program? *Your answer

59 responses

To be able to spot opportunities in the province, proficiency in professional softwares and other prerequisite engineering skills

Entrepreneurship

Generally, I hope to learn more about the market and job opportunities available in Newfoundland and Labrador, and build different connections within the province.

Entrepreneurship opportunities in Atlantic provinces. Skills and present situation with future opportunities.

Networking and social skill

Current trend on job market

I am looking to gain stronger skills in business development and gain valuable knowledge in health care sector services.

Entrepreneurship Skills and Networking

What are the differences between Canada and other countries in starting a business?

what are the differences in starting the business between St' Johns' and other provinces in Canada?

What skills are needed in order to manage a team within a business-oriented start-up?

The skills that are needed to interview and find people to join my team? how can I find that someone is trustable or not?

I am an international student at the moment and intend to start working on a business, I do not have a permanent residency, suppose I run my start up within a team, after some time my visa become expired, so what should I do? Does Canadian gov. give the permission to stay and work on a idea?

I expect to give every one to have the opportunity to pitch in front of investors and judges.

I would like to know about how to develop professional networks so that I can enter into the job market of NL and apply my academic and professional knowledge. At the same time, I would like to get Entrepreneurship mentorship on Importing products and selling in NL. I have plan to start a business on apparel products in future.

Selling an business idea, pitching ideas and yourself, networking, understanding how businesses work in NL

I hope to learn how to generate funding to start up a business, legal requirements for business creation and registration as well as connection to schools where I can teach and practice as an administrator.

What job can I get in Newfoundland as a new graduate from BBA program.

Entrepreneurship skills

How to start a business

i need to learn more about the province and how to start a business step by step. i would like to learn how to find the perfect job the suits my abilities and needs

i need to learn how to apply my skills knowledge and abilities to the field

how to specialize in a field that i am totally aware of where i can become more unique and needed

i would want to gain resources that could help start my own business since i do have an idea that is beneficial for the province and my self but resources are much needed to establish it

First is to develop my knowledge to be successful in finding a job if not being an entrepreneur. However, I'd like to learn how to be an entrepreneur finding what are the demands in this growing province and how we can find a way to address them. Also I would like to meet people there and maybe make a group and try to build something together by sharing ideas and learning from each other.

Entrepreneurship, social activities, sales and personality development.

I hope that I will acquire entrepreneurship quality, professional skills, and know more about new culture.

Looking to learn something new

interview skills/how to immigrate/broad my connection/

I hope to learn how to prepare documents for starting a new business, sharing business ideas and previous organizational skills with peers.

The way to be an entrepreneur.

I want to have this experience to prepare for the future career.

At the same time, use this chance to increase my English ability.

Communication skills, people management skills and leadership skills

legal support for entrepreneurship, developing professional networks, immigration support, resume and cover letter writing support

Ways to become a permanent residence, what should I know to success in job interviews, the best ways to find jobs, job-network connections, finding a partner with common interests to establish our own business (if we found a successful idea)

-I would like to learn more about the economy of NL and how the business environment works.

-I hope to better understand what it's like to start a business, including specific and underlying challenges.

-I hope to better understand the Marketing and Communications industry, with focus on NL.

-I would like to better understand the immigration process.

-Overall, I hope to gain new skills and knowledge, as well as improve existing ones.

Want to learn more on Newfoundland immigration and opportunities

I hope to learn a lot and get Entrepreneurship mentor-ship

I am mostly interested in marketing: how to grow our brand, how to make people know about us, how to have an excellent online presence. Also, I am looking for some education about basic accounting, because we have some sales and they are growing. We will need good bookkeeping and accounting to track our sales. I would also like to get to know good business strategies to compete and dominate in the industry.

Immigration pathways (mentorship to residency) & entrepreneurship

I would like to learn more about the labour market in NL and post graduation job opportunities ,immigration support.

The ways that can I apply for PR and stay in NL

Networking. I am mostly interested in networking with entrepreneurs in St. John's area.

Leadership quality, excellent communication skill, building network, attending job interview confidently, Fluent English Language skill, writing good resumes for jobs.

The market and the resources needed for a start up

Marketing and legal issues

I don't have enough money, and I don't know the profit of such business

-Understanding the legal process.

-Potential for success given the type of business.

-Better understanding the business startup process.

-Better understanding the NL economy.

As an international student I think it's hard

Legal issues surrounding starting a business in NL, Right business Connections and a little bit of financial support in setting up a business in NL.

We already started actually , we are in the St. John's Farmer's Market as well. We are thinking of growing and expanding the business. We need our own space, we need kitchen, infrastructures and some employees as well, because the sales we have now are not bad, but if we want to grow it we will need more people to get involved, we are just physically unable to provide more production

lack of funds

Licensing and Registration

if my idea could work in NL

NA

The right pathway to success and to not let my team down. How to be the best leader, leadership skills, negotiation strategies, investments.

Not applicable.

I need to be mentored by someone who can give me the right advice for starting my business according to the NL regulations/laws. and to make it financial/managerial stable

Getting support from government

My focus is on more business strategies and entrepreneurship Within St john's , How can i make an online platform for all other small businesses and promote them on social media where people can make booking and make an appointment with daily life to do things such as Hair saloon, car wash, babysitting, book taxi, delivery services, purchase online cloth from st john's brands, and many more and cyber security...give them a quick response.

N/A

I would need to be mentored by someone who is qualified enough to advise me during my business starting time period for reaching the financial/managerial stabilization.

Funding - governmental approval

I'm unsure of the funding, as well as the feasibility of my plan.

Nothing

Capital

if the economy is in good status to support entrepreneurs

Access to capital, support and mentorship

Do I have to be a permanent resident of Canada to start up a new business?

need to investigate all aspects first

legal constraints, and lack of investments

I am not aware of the sources for initial funding, if available.

Licenses, Funding, Legal aspects that are involved in any business, Bureaucratic requirements to complete registration of Business, Approaching organizations for guidance. Afraid of cold calling organizations to learn more about their organizational structures and requirements.

demand and supply

Availability of finance, prospects of growth

have idea about starting an startup

It's my first time trying to find how to run a business. I'm worried that I wouldn't see important aspects in running a new business and eventually fail and lose my capital.

The process, regulation and policies on how to start a business here. Are there any resources to help us to set up business.

Monetary

I need to know legal requirements ; required financial support for start up

6.) What concerns do you have about entering the NL workplace?

59 responses

No concerns

The lack of opportunities due to no Canadian professional experience

Local market needs and understanding

Work place environment and able to cope up and learn

long and costly licencing process for pharmacist

Amount of Job Opportunities

How can I find the companies related to my experiences?

Professional Networking.

Don't have much understanding of the market here in NL, I don't have the connections to help me through my transition phase being an student to have a business of my own.

Lack of teaching experience in NL

Discrimination.

If it can sell to the general public

Shortage of calliper workers

not finding the right job the meets my expectations and career goals

As I noticed, unfortunately not many people want to stay here. Reasons like, hard to find job, not well developed city/province, far from mainland and also expensive to travel from here and weather that limits the outside activities. By a very shallow analyzing one may realize that all are kind of related to the foundations and they can be solved by a plan. I think something should be done in this province to provide people such place they want to stay. First would be creating jobs to stop people move to another provinces to find job. Therefore how government wants or is able to provide the tools is something that is a concern because as students we need to have support.

Working culture, setting up link in profile

I don't have any concerns at this time.

I dont know how to go about

cultural difference

As an MA Economics graduate what kind of role are there available in NL.

The development opportunities

Communication skills - to be to market myself

language, culture background, social networks

Maybe I have weakness in speaking in English confidently.

-Securing a post-graduate work permit and confirming a job. I do have a potential offer from where I am currently working part-time, as I have worked with them for two work terms as well, but this is tentative. Therefore I need to keep my options open and actively seek out a job that would fit what I am looking for.

Being a visible minority might be a problem

I don't have any plans of looking for another job. I just want to set up my own small business of a cleaning company. The current cleaning job and security Job I do can help me raise some capital after 3yrs of savings.

The biggest concern is to get a spot in a good location with some kitchen infrastructures. Other than that we are confident that we will compete with others with our products, because they are pretty unique here and lots of people enjoy them

Union contracts

Work Permit

I believe I will get answers to my questions/concerns during your program

how can I work with others

None

What type of job opportunities Newfoundland provide for the folklorists and is there other job areas opened for folklorists to apply?

I need to be mentored by someone who can tell me everything in the right-way for entering the NL Workplace to avoid any miss-understanding to the tricky sections of it's policies/restrictions.

No concern at this point

Business strategy , Data resources for data analysis

N/A

I do not have any concerns to enter the NL workplace. And, I am reading about the Labour market, employees - employer partnership, and their rights according to the NL laws/Acts. but I will need an adviser to guide me to the correct path within starting up my business.

none

It was amazing.

NA

considering myself as an international student I am hoping the companies to be more welcoming and giving us an opportunity to show them how talented we are!

Finding a good employment

No

cultural difference

none.

No Concerns

I have been here in NL for only one year, and I have huge goals compared to what others are trying to do. Not sure if I am dreaming big, or if it is even possible to achieve. How to start with building business from the scratch? What are the possible resources available in NL to kick start business.

knowledge

Competition and good mentors

use existing market potential

Not being familiar with the system here. How different seasons can affect my job. How the immigration regulations can change and affect my stay in NL or Canada.

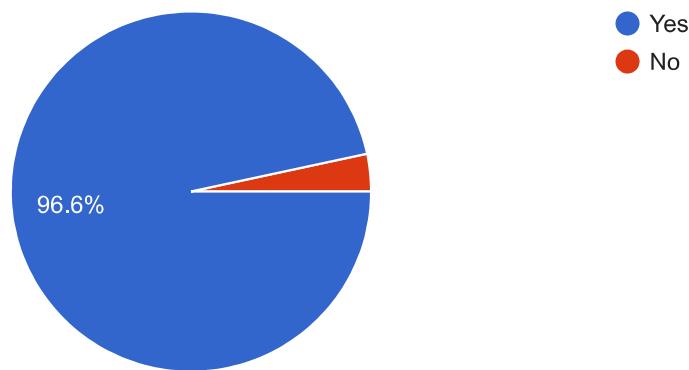

Cause we are international students, we don't have much experience working in the environment of Canadian companies or multicultural companies. Myself would like to know more about the company culture or customs in working.

Professional communication and culture

Financial and moral support

What are the differences between Canada and other countries in starting a business?

what are the differences in starting the business between St' Johns' and other provinces in Canada?

What skills are needed in order to manage a team within a business-oriented start-up?

The skills that are needed to interview and find people to join my team? how can I find that someone is trustable or not?

I am an international student at the moment and intend to start working on a business, I do not have a permanent residency, suppose I run my start up within a team, after some time my visa become expired, so what should I do? Does Canadian gov. give the permission to stay and work on a idea?

I expect to give every one to have the opportunity to pitch in front of investors and judges.

I am living in Corner-brook, NL. I will participate in the retreat program. I am curious to know that is it possible to get allowance to participate program by Air? or Is it mandatory to use other mode of transportation?

None at the moment.

I just wish to find out the start time and end time of the retreat for the two days.

No.

After the program how do we stay? Because it says study and stay is this like an immigration program or a program to get you ready for immigration?

i was wondering if the program would help us get a work permit or we should start applying for it by our selves as soon as we can?

How would you want to help us a student to be a professional or entrepreneur? Aside from theory learning.

Let me know if I need to start working on business idea right now ?

Why business only, why not charity.

Not at this time.

Whats the program outline?

Will you provide some chance to know some entrepreneurs?

No questions for now

I was wondering what is the time for the welcome event that will be held at the 1st and 2nd of Nov. 2019? because I need to prepare my schedule for those days

No questions at this moment. Looking forward to meeting you and discuss the details. Thank you

What means of transportation will the program be providing to students? Is it by bus? If so, I would like to ask if you guys cover millage/gas costs instead from a personal vehicle. I ask this because I have neck and back issues and I need to stop many times throughout the trip as they start to hurt. I can get a physio note explaining this further as well.

No question right now.

Please let me know the exact time of Retreat on Nov 1st. TIA

NA

What will be the next step to proceed with the program after attending the retreat?

I would need to get the program's activities/events schedule and agenda in detail to be concerned in my personal schedule.

No question

My main interests in on Business strategies then become business analyst.

I'm so excited to learn more by this program.

I would need to get the program's activities/events schedule and agenda in detail to be concerned in my personal schedule.

is this program going to help us get our work permit or should we start working on it as soon as we graduate?

That should be it for now.

All good. Thanks.

How long is the retreat, the expectation of the organizers, and a breakdown or schedule of events?

no questions at the moment!

What do I need to do in order to be successful in this program

no questions

none.

No Questions

If I could connect directly with someone involved in the Social service sector and willing to help me understand how to go about it, where to start, and skills necessary to approach different clients. Nothing specific that I can think of right away. The first introductory session would help me understand this program further.

Is it risky to run a new business in NL? Does the government support? In what way? What does your experience indicate to regarding the success rate of your previous candidates in their business or plans?

Looking forward to this program.

I wish to have Schedule for the entire program

I need full support of team in start up a business as well as Permanent Residence Immigration program
